INFORMATION DISCLOSURE STATEMENT

Respectfully submitted herewith is a copy of a German Patent Office Search Report (3 pages) from the parallel German application 100 27 614.8 of which the present application claims priority, together with copies of its 5 cited references.

In the German Patent Office Search Report all the references are listed in category Y meaning these documents are of particular relevance with respect to the listed claims; the claimed invention cannot be considered to involve an inventive step when these documents are combined with each other, such combination being obvious to a person skilled in the art.

In the German Patent Office Search Report the words "Kategorie" means category, "Ermittelte Druckschriften/Erläuterungen" means transmitted publications/explanations, "Betrifft Anspruch" means concerning claim, "Teil(e)" means part(s), "Figur" means Fig(s), or illustration(s), and "Anspruch" means claim. Since this translation now points out in English the relevant portions of the citations listed in the German Patent Office Search Report, no further concise explanation is required under 1138 OG 38.

Nevertheless please see Figs. and corresponding text of the references for relevance.

A PTO-1449 form is presented listing the five submitted references.

Translations of these German language references are not available to the undersigned.

This submission meets the requirements of 37 CFR §1.56, 1.97 and 1.98(a) and MPEP 609.

Respectfully submitted
